Dartmouth
GEISEL SCHOOL OF MEDICINE

Class Day Ceremony

Saturday, May 28, 2022
Hanover, New Hampshire

PROGRAM

Bagpipers

James M. Feeney, MD, MED ’00
Travis H. Matheney, MD, MED ’00

Processional

Welcome

Duane A. Compton, PhD
Dean, Geisel School of Medicine
Professor of Biochemistry and Cell Biology

Class Day Address

Andrea Hayes, MD, FACS, FAAP, UG ’87, MED ’91
Chair of the Department of Surgery
Schneider Endowed Professor
Associate Director of the Cancer Center
at Howard University College of Medicine

Medical Student Speaker

Ramzi W. Ben-Yelles

Conferring of Hoods on MD Candidates

Reader of Names for MD Students

Sonia N. Chimienti, MD, FIDSA
Senior Associate Dean for Medical Education
Professor of Medicine

Hooders for MD Students

John F. Dick III, MD, MED '03
Associate Dean for Clinical Education
Assistant Professor of Medicine

Lawrence C. Myers, PhD
Associate Professor of Medical Education
Associate Professor of Biochemistry and Cell Biology

Presentation of Student Awards

Duane A. Compton, PhD
Sonia N. Chimienti, MD, FIDSA

Medical Student Speaker

Falen Demsas

Recitation of Hippocratic Oath by MD Candidates

Alison V. Holmes, MD, MPH
Associate Dean of Student Affairs
Associate Professor of Pediatrics
Associate Professor of The Dartmouth Institute

Recognition of Active Military Service Members and Veterans

Daniel H. Idelkope, Diana Y. Lee, Britney M. Margulies,
Richard B. Pace, Michael T. Sramek, Jacob S. Torrey

Welcome to Alumni Address

John Houde, MD, MED '92
President, Geisel School of Medicine Alumni Council

Closing Remarks

Duane A. Compton, PhD

Award Descriptions

The William Mellen Chamberlain Memorial Prize, presented by his widow, Mrs. Mary H. Chamberlain of Princeton, New Jersey is awarded each year to the member/s of the graduating class who, in the opinion of the faculty, has the best overall record of achievement during his or her four years of study at the Geisel School of Medicine at Dartmouth.

The Good Physician Award was established through the generosity of anonymous faculty members and the recipient is selected by the class. Members of the class are asked to choose the person who best exemplifies the personal and intangible qualities of the good physician. They are asked to consider these traits emphasizing the combination of scientific and professional knowledge with the qualities of general wisdom, of caring, of empathy, and of devotion to the welfare of others which defines the highest level of the profession of medicine.

Hippocratic Oath

I do solemnly swear, by whatever I hold most sacred, that I will be loyal to the profession of medicine and just and generous to its members.

That the regimen I adopt shall be for the benefit of my patients according to my ability and judgment, and not for their hurt or for any wrong.

That I will lead my life and practice my art in uprightness and honor.

That into whatsoever house I shall enter, it shall be for the good of the sick to the utmost of my power, holding myself far aloof from wrong, from corruption, from the tempting of others to vice.

That I will exercise my art solely for the care of my patients, and will give no drug, perform no operation, for a harmful intent, even if solicited, far less suggest it.

That whatsoever I shall see or hear of the lives of my patients which is not fitting to be spoken, I will keep inviolably secret.

These things do I swear. And now, if I will be true to this, may prosperity and good repute be forever mine; the opposite if I shall prove myself forsworn.

Retirees

Anesthesiology

Gregg S. Hartman, MD, Professor of Anesthesiology

Michael L. Beach, MD, PhD, Professor of Anesthesiology, Biomedical Data Science, and Pediatrics

Community and Family Medicine

Carol L. Blackwood, MD, Clinical Assistant Professor of Community and Family Medicine

Harry Colt, MD, Assistant Professor of Community and Family Medicine

Ernst M. Oidtmann, MD, Clinical Assistant Professor of Community and Family Medicine

J. Cowan Stark, MD, Clinical Assistant Professor of Community and Family Medicine

Epidemiology

Leila A. Motts, MS, Research Scientist

Medicine

Gerald Gehr, MD, Assistant Professor of Medicine

Thomas H. Taylor, MD, Associate Professor of Medicine

Microbiology and Immunology

Ambrose L. Cheung, MD, Professor of Microbiology and Immunology

Randolph J. Noelle, PhD, Professor of Microbiology and Immunology

Paula R. Sundstrom, PhD, Professor of Microbiology and Immunology

Obstetrics and Gynecology

David R. Levene, MD, Clinical Assistant Professor of Obstetrics and Gynecology

Pathology and Laboratory Medicine

Nora R. Ratcliffe, MD, Associate Professor of Pathology and Laboratory Medicine

Wendy A. Wells, MBBS, MSc, Professor and Chair of Pathology and Laboratory Medicine

Pediatrics

Gerald H. Angoff, MD, Clinical Assistant Professor of Pediatrics

Nancy J. Charest, MD, Clinical Assistant Professor of Pediatrics

Psychiatry

Lisa A. Cudhea, MA, Clinical Instructor in Psychiatry

Mark J. Detzer, PhD, Assistant Professor of Psychiatry

Albert M. Drukteinis, MD, JD, Clinical Associate Professor of Psychiatry

Matthew J. Friedman, MD, Professor of Psychiatry

Nancy S. Nowell, PhD, Assistant Professor of Psychiatry

Andrew S. Pomerantz, MD, Associate Professor of Psychiatry

Surgery

Lawrence J. Dacey, MD, Professor of Surgery, and Professor of Community and Family Medicine

James H. Dolan, DPM, Instructor in Surgery

Paul H. Kispert, MD, Assistant Professor of Surgery, Assistant Professor of Anesthesiology

William S. Laycock III, MD, Associate Professor of Surgery

Christopher J. Soares, MD, Clinical Assistant Professor of Surgery

Class Day Speaker

Andrea Hayes, MD, FACS, FAAP

Dr. Andrea Hayes MED '91, FACS, FAAP is Chairwoman of Surgery and the Schneider Endowed Professor at Howard University School of Medicine where she is also Associate Director of the Cancer Center. Specializing in refractory and resistant tumors in children—specifically soft tissue sarcomas—Dr. Hayes is the first African American female pediatric surgeon in the U.S., and both nationally and internationally known for her work pioneering hyperthermic intraperitoneal chemotherapy (HIPEC) and cytoreductive surgery in children.

She has continued influencing the field of sarcoma and sarcomatosis by treating the largest number of desmoplastic small round cell tumor (DSRCT) patients at any one hospital and by any one surgeon. DSRCT is a rare disease for which she has improved a survival from 30 percent to 60 percent based on complete removal of hundreds of intra-abdominal tumor implants and HIPEC. She continues to receive philanthropic funding for her research.

A graduate of Dartmouth's medical school, Dr. Hayes completed her residency program at the University of California Davis East Bay, and a molecular biology fellowship at the University of California San Francisco. She went on to complete a pediatric surgical oncology fellowship at the St. Jude Children's Research Hospital in Memphis, Tennessee, a pediatric surgery fellowship at the acclaimed Toronto Hospital for Sick Children, and a special fellowship in melanoma and sarcoma at the University of Texas M.D. Anderson Cancer Center.

For the past 10 years, Dr. Hayes has served on the executive committee of the children's oncology group sarcoma community, is a member in the American Surgical Association, and has served as chair of the cancer committee for the American Pediatric Surgical Association. She has also been selected for the pediatric disease query PDQ, a national committee that vets all publications on pediatric cancer then summarizes them on the National Institute of Health website. She is past president for the Society of Black Academic Surgeons and is a Regent of the American College of Surgeons. Dr. Hayes was appointed by President Donald J. Trump to the National Cancer Advisory Board that reports to the director of the National Cancer Institute and the Secretary of Health.

Dr. Hayes has published over 160 manuscripts, dozens of book chapters, and has been featured in television and print news, including recognition in *Houston Woman* magazine. She continues to be active and involved in mentorship for young surgeons interested in an academic career.

Acknowledgments

We would like to express our appreciation and thanks to the following Geisel School of Medicine offices for the contribution they have made: Office of Admissions, Office of the Dean, Office of the Registrar, Geisel Facilities, Medical and Health Care Advancement, Office of Alumni Engagement, and Office of Student Affairs.

A special thank you to our Faculty Marshal: Matthew S. Duncan, MD, MED '01, Assistant Professor of Psychiatry and Assistant Professor of Medical Education.

About the Geisel School of Medicine at Dartmouth

Founded in 1797, the Geisel School of Medicine at Dartmouth strives to improve the lives of the communities it serves through excellence in learning, discovery, and healing. The Geisel School of Medicine is renowned for its leadership in medical education, health care policy and delivery science, biomedical research, global health, and in creating innovations that improve lives worldwide. As one of America's leading medical schools, Dartmouth's Geisel School of Medicine is committed to training new generations of diverse leaders who will help solve our most vexing challenges in health care.
