AWARD DESCRIPTIONS

THE WILLIAM MELLEN CHAMBERLAIN MEMORIAL PRIZE, PRESENTED BY HIS WIDOW, MRS. MARY H. CHAMBERLAIN OF PRINCETON, NEW JERSEY is awarded each year to the member/s of the graduating class who, in the opinion of the faculty, has the best overall record of achievement during his or her four years of study at the Geisel School of Medicine at Dartmouth.

THE GOOD PHYSICIAN AWARD was established through the generosity of anonymous faculty members and the recipient is selected by the class. Members of the class are asked to choose the person who best exemplifies the personal and intangible qualities of the good physician. They are asked to consider these traits emphasizing the combination of scientific and professional knowledge with the qualities of general wisdom, of caring, of empathy, and of devotion to the welfare of others which defines the highest level of the profession of medicine.

HIPPOCRATIC OATH

I do solemnly swear, by whatever I hold most sacred, that I will be loyal to the profession of medicine and just and generous to its members.

That the regimen I adopt shall be for the benefit of my patients according to my ability and judgment, and not for their hurt or for any wrong.

That I will lead my life and practice my art in uprightness and honor.

That into whatsoever house I shall enter, it shall be for the good of the sick to the utmost of my power, holding myself far aloof from wrong, from corruption, from the tempting of others to vice.

That I will exercise my art solely for the care of my patients, and will give no drug, perform no operation, for a harmful intent, even if solicited, far less suggest it.

That whatsoever I shall see or hear of the lives of my patients which is not fitting to be spoken, I will keep inviolably secret.

These things do I swear. And now, if I will be true to this, may prosperity and good repute be forever mine; the opposite if I shall prove myself forsworn.

CLASS DAY SPEAKER

RITA CHARON, MD, PhD

Rita Charon is a general internist, literary scholar, and the originator of the field of narrative medicine. She is Professor and Founding Chair of the Department of Medical Humanities and Ethics and Professor of Medicine at Columbia University. She completed the MD at Harvard in 1978 and the PhD in English at Columbia in 1999, concentrating on the works of Henry James. Her research focuses on the consequences of narrative medicine practice, reflective clinical practice, and health care team effectiveness. She directs the Virginia Apgar Teaching Academy for Medical Educators and Columbia Commons IPE, the health sciences campus interprofessional education and practice program. She is the recipient of a Guggenheim Fellowship, a Rockefeller Bellagio residency, and recognition from many medical and literary societies. She has served as Visiting Professor at many medical schools and universities in the US and abroad, teaching narrative medicine theory and practice. Her work has been funded by NIH, NEH, and private foundations, and her essays appear in the leading medical and literary journals. Her most recent book, co-authored with seven narrative medicine colleagues, is *The Principles and Practice of Narrative Medicine* (Oxford 2017).

ACKNOWLEDGMENTS
