There Is a Doctor in the House!

The Making of a Physician

THE MAKING OF A PHYSICIAN

Session 1: Tuesday, September 20

BEHIND THE WHITE COAT

What does it take to train a competent and caring physician? The challenges of medical education in the 21st century.

Stephen P. Spielberg, MD, PhD, Dean;
David W. Nierenberg, MD; Joseph O'Donnell, MD

Session 2: Tuesday, September 27

THOSE IMPORTANT FIRST STEPS

How do you pry with empathy and sensitivity? Learning communication skills—the critical first steps to becoming an effective physician.

Nan Cochran, MD; Deborah A. Peltier, MD

Session 3: Tuesday, October 4

WHO ARE YOU, AND WHAT ARE YOU DOING WITH THAT STETHOSCOPE?

Science—the foundation of modern medical practice! Learn how human biology influences your doctor's every action. A closer look at the cardiovascular and endocrine systems.

James R. Bell, MD; Donald L. St. Germain, MD

Session 4: Tuesday, October 11

THE O.R. AND OH BABY!

Experience the thrill of stepping into an operating room for the first time and learn how to deliver a baby.

Todd E. Burdette, MD; Barbara Fildes, MS, CNM;
Karen E. George, MD

Session 5: Tuesday, October 18

IT TAKES A VILLAGE

You think adult doctoring is a challenge? Try caring for a stubborn 2-year-old and her family! The unique challenges of teaching and learning the skills of pediatrics.

Leslie H. Fall, MD; George A. Little, MD

Session 6: Tuesday, October 25

LOG ON, TIE OFF

First, learn state-of-the-art genetics using virtual reality computer tools. Next, it's into the surgical lab to learn the fundamentals of tying surgical knots.

Joseph V. Henderson, MD; William W. Young, MD

Session 7: Tuesday, November 8

THE INNER SANCTUM

An inside look at Medicine's premier teaching session—the "M&M Conference" where complex medical cases are reviewed and no holds are barred!

Jonathan M. Ross, MD; Lin A. Brown, MD;
Harold L. Manning, MD; Roshini C. Pinto-Powell, MD;
Adam J. Schwarz, MD

Session 8: Tuesday, November 15

THE ETHICS AND ART OF CARING

Understanding patients' needs and helping them define opportunities for growth and enrichment through the end of life.

James L. Bernat, MD; Ira R. Byock, MD
