

KAREN L. FORTUNA

46 Centerra Parkway Suite 200; Lebanon, NH 03766 | (603) 722-5727 | Karen.L.Fortuna@dartmouth.edu

EDUCATION

Doctor of Philosophy Florida International University, College of Public Health and Social Work, Miami, FL Social Welfare	August 2014
Certificate in Mental Health and Aging Behavioral Health Connections, Philadelphia, PA Geriatric Mental Health	May 2007
Master of Social Work University of Pennsylvania, School of Social Policy and Practice, Philadelphia, PA	May 2007
Bachelor of Arts Western Washington University, Bellingham, WA Human Services	May 2003

LICENSURE

Licensed Independent Clinical Social Worker New Hampshire	January 2020-present
---	----------------------

TRAINING AND PROFESSIONAL EXPERIENCE

Health Policy Training AcademyHealth, Washington, DC	October 2023
Health and Aging Policy, Fellow New York State Psychiatric Institute, Columbia University, New York, NY	October 2023-October 2024
National Institute on Aging, Agile Nudge University, Fellow Center for Health Innovation & Implementation Science, Indiana University	May 2023-May 2024
Assistant Professor of Psychiatry, Geisel School of Medicine , Hanover, NH Dartmouth College	September 2018-present
NIMH Postdoctoral Fellowship in Mental Health Services , Lebanon, NH Dartmouth College, Geisel School of Medicine, Center for Aging Research <i>Supported by T32 MH073553-11; Advisor: Stephen Bartels, MD, MS</i>	May 2015-Sept.2018
Research Coordinator , Miami, FL Florida International University, College of Nursing and Health Sciences <i>Supported by Florida Department of Health</i>	2014 –2015
AGE SW Gerontological Social Work Pre-doctoral Fellow <i>Supported by National Association for Gerontology Education in Social Work</i>	2013

KAREN L. FORTUNA

46 Centerra Parkway Suite 200; Lebanon, NH 03766 | (603) 722-5727 | Karen.L.Fortuna@dartmouth.edu

NIMHD Graduate Research Assistant , Miami, FL Florida International University, Robert Stempel College of Public Health and Social Work <i>Supported by P20MD002288</i>	2012 – 2014
Project Director , Philadelphia, PA University of Pennsylvania, School of Medicine, Department of Psychiatry, Center for Mental Health Policy and Services Research	2006 – 2012
NIMH Summer Training on Aging Research Topics-Mental Health , San Diego, CA University of California, San Diego, Department of Psychiatry	Aug. 2007

HONORS AND AWARDS

Advisory Member <i>Bipartisan Policy Center's Behavioral Health Integration Task Force</i>	2023
Interstellar Initiative <i>New York Academy of Sciences and the Japan Agency for Medical Research and Development</i>	2021
Ally of the Year <i>Western Mass Peer Network</i>	2021
Advanced Research Institute (ARI) in Mental Health and Aging Scholar <i>Geisel School of Medicine at Dartmouth and Dartmouth Hitchcock Health</i>	2021 -2023
Innovation Corps <i>National Science Foundation</i>	2020
Faculty Achievement Award <i>National Association for Gerontology Education in Social Work</i>	2019
Mental Health Information Technology App Advisor Expert Panel <i>American Psychiatric Association</i>	2019-present
The Sloan Research Network on Aging & Work International Institute; Fellow <i>Alfred P. Sloan Foundation</i>	2019
Alvin R. Tarlov & John E. Ware Jr. Award in Patient Reported Outcomes <i>Health Assessment Lab</i>	2018
Postdoctoral Scholar Professional Development Award <i>Dartmouth College</i>	2018
NARSAD Early Career Investigator <i>Brain and Behavior Foundation</i>	2017
Mixed Methods Research Training Program for the Health Sciences <i>Johns Hopkins Bloomberg School of Public Health</i>	2017
NIH Mobile Health Training Institute; Fellow <i>University of California-Los Angeles, Supported by National Institute of Health (R25DA038167)</i>	2016

KAREN L. FORTUNA

46 Centerra Parkway Suite 200; Lebanon, NH 03766 | (603) 722-5727 | Karen.L.Fortuna@dartmouth.edu

NIMH New Investigators Workshop, Fellow <i>National Institute of Mental Health</i>	2016
Rand Mini-Medical School; Fellow <i>Rand Corporation Headquarters, Los Angeles, California</i>	2016
NIMH Summer Research Institute in Geriatric Mental Health, Invited Participant <i>Weill Cornell Medical College, Supported by National Institute of Mental Health (R25 MH019946)</i>	2015
Ruth L. Kirchstein National Research Service Award (NRSA) <i>Supported by National Institute on Mental Health (T32 MH073553-11)</i>	2015-2017
Mental Health and Aging Scholar; Fellow <i>University of Miami, Miller School of Medicine, Department of Psychiatry</i>	2015
Newcombe Scholarship <i>University of Pennsylvania, School of Social Policy and Practice</i>	2005-2007
Student of the Year <i>Western Washington University, Woodring College of Education</i>	2003

RESEARCH GRANT PARTICIPATION

Ongoing

**Dartmouth College--Levy Health Care Delivery Incubator at Dartmouth
January 2024**

January 2023-

Title: Mitigating Moral Injury via Healing Social Networks

Objectives: Moral injury is defined as the psychological, behavioral, social, and spiritual sequelae of exposure to a moral transgression committed by oneself or others. Data across 28 months of the pandemic indicate that >75% of health care workers are experiencing routine exposure to moral dilemmas and morally injurious events, influencing emergent mental health disorders, eroded social connection, degraded healthcare quality, and increased intentions to leave the nursing workforce. This project targets mechanisms of moral injury healing among nurses, specifically aiming to develop interventions to re-establish healthy and supportive social networks that can empower action towards positive social meaning, service, and connection.

Role: Co-Investigator

NIMH K01 Early Career Investigator Award

July 2019-January 2024

Title: Peer-Delivered and Technology-Supported Illness Self-Management

Objectives: This award includes a 4-year plan to become an independent investigator to pursue a research career developing and testing novel approaches to peer-delivered evidence-based self-management interventions for adults with serious mental illness.

Role: Principal Investigator

PCORI Pragmatic Clinical Trial Bartels & Pratt (Co-PIs)

May 2019-May 2025

Title: Integrated Physical and Mental Health Self-management Compared to Chronic Disease Self-management

Objective: Comparative effectiveness randomized control trial comparing Integrated Illness Management and Recovery in comparison to Chronic Disease Self-Management Program with 600 people with serious mental illness.

Role: Co-Investigator

PCORI- Convening Meeting PCORI Engagement Award

November 2021- June 2023

Title: Early Mortality in People with Serious Mental Illness (PCC) Roundtable

Objectives: People with serious mental illness (SMI) die approximately 10–25 years earlier than the general population, irrespective of geography, race and ethnicity, systems of health care, or approaches to health-care financing. SMI is defined as having a diagnosis of schizophrenia spectrum disorder, bipolar disorder, or major

KAREN L. FORTUNA

46 Centerra Parkway Suite 200; Lebanon, NH 03766 | (603) 722-5727 | Karen.L.Fortuna@dartmouth.edu

depressive disorder. Poor health behaviors related to diet and activity are identified as the prominent contributors to preventable early mortality in the United States. As such, a series of health promotion and self-management interventions were developed to promote positive health behavior change (e.g., exercise, healthy eating) to address these modifiable risk factors (e.g., poor diet, smoking) in people with SMI. Yet, after billions of dollars spent through institutions such as PCORI and decades of research dedicated to developing interventions and disseminating evidence, the mortality gap between those with SMI and the general population is increasing. Exploration of unidentified and unaddressed risk factors for early mortality among people with SMI is critically needed to address this mortality gap. This convening meeting will establish the *Early Mortality in People with Serious Mental Illness Virtual Roundtable*, a stakeholder collaborative composed of patients, caregivers, researchers, policymakers, grassroots groups, and national organizations committed to address the early mortality health disparity in people with SMI through patient-centered research (PCOR).

Role: Principal Investigator

American Federation on Aging

January 2021-January 2023

Title: Developing a National Workforce of Certified Older Adult Peer Support Specialists

Objectives: Older adults with mental health challenges experience 6-9 chronic health conditions coupled with impaired independent living skills and limited medical, psychiatric, and social health self-management skills. As such, few older adults maintain capacity to age in place as older adults with mental health challenges are 3.5 times more likely to reside in a nursing home compared to Medicaid recipients of the same age. Certified older adult peer specialists (COAPS) is an emerging workforce that can offset provider and patient-based factors to facilitate adoption of functioning interventions. COAPS is a Medicaid reimbursable workforce of individuals aged 50+ years who currently have a mental health diagnosis, who are hired, trained, and accredited to offer peer support (i.e., lived experience of aging with a mental health condition). COAPS are increasingly using tablets to deliver interventions to older adults with SMI. SOAR is a 12-week tablet-based intervention that is designed to promote late-life functioning in older people with mental health challenges. SOAR includes weekly one-on-one meetings facilitated on a tablet. During each meeting, COAPS are guided by peer-led videos and combines three evidence-based practices shown to support functioning in older adults: (1) whole health (physical, mental, and social [i.e., loneliness, hope, recovery]) through goal setting, self-advocacy, healthy aging, developing and maintaining relationships, and crisis management; (2) peer support, which improves knowledge of aging with a mental health challenge and improves functioning; and (3) life review, which supports processing of late-life events like grief. This study will conduct a randomized control trial of COAPS compared to peer support as usual (N=40).

Role: Principal Investigator

PCORI- Eugene Washington PCORI Engagement Award

October 2020-October 2022

Title: PCORI Engagement Award- Bridging the Virtual Divide

Objectives: The Covid-19 pandemic has the potential to widen health disparities and increase barriers to research participation for older adults with SMI, a marginalized patient group who die 15-25 years earlier than the general population. Despite the urgent need for innovative virtual engagement strategies, the health disparity experienced by older adults with mental illness remains understudied. We lack data on virtual engagement strategies for older adults with SMI, peers, and clinicians that can decrease isolation, extend our reach to partner in PCOR, and be adapted to the Latinx population. This award will create a Community of Practice that will

KAREN L. FORTUNA

46 Centerra Parkway Suite 200; Lebanon, NH 03766 | (603) 722-5727 | Karen.L.Fortuna@dartmouth.edu

equip stakeholders to collaborate in PCOR with a shared commitment to digital innovation, co-learning, and health equity.

Role: Co-Investigator

Japan Agency for Medical Research and Development

August 2021 to August 2022

Title: Patient-centric approach to utilizing visual misperception as a marker for neuropsychiatric disease – ‘*RealVision*’ study

Objectives: Psychosis in neuropsychiatric disease have far-reaching health and socioeconomic consequences. The symptoms of psychosis, if diagnosed early, allows timely intervention thereby modifying the disease trajectory. This research aims to address this burden by integrating current trends in mobile health, artificial intelligence, and biosensing for early detection and biomarker development for neuropsychiatric disease.

Role: Co-Principal Investigator

PCORI- Eugene Washington PCORI Engagement Award January 2021

January 2020-

Title: Pre-Menstrual Disorders (PMDD) Community Coalition (PCC) Roundtable

Objectives: The PCC Roundtable will help improve patient outcomes because it will align stakeholders along common goals and set direction for PMDD research. With its recent inclusion in the DSM-5 and ICD-11, PMDD is emerging as a global public health problem, garnering attention for its scientific and market potential. PMDD is also gaining mainstream attention through various sociopolitical movements - mental health, menstrual health, women’s rights, suicide prevention, medical gaslighting - and strong patient activism campaigns to raise awareness. Objectives include development of a research agenda and a strategic plan for PMDD PCOR will help streamline and focus this new awareness, attention, and energy into effective and impactful research that improves patient outcomes through partnerships with other stakeholders.

Role: Co-Investigator

PCORI- Eugene Washington PCORI Engagement Award October 2021

October 2020-

Title: Engagement of Mothers with Mental Illness and Substance Use in the Context of COVID-19

Objectives: COVID-19 is having profound impact on the way we engage with others. Virtual engagement has never been more important, given the requirements for physical distancing to avoid transmission of the virus. Mothers of childbearing age with mental illness and substance use are a high- risk group, likely to be even more vulnerable during this stressful time. Objectives include (1) to help communities increase capacity to participate in all phases of PCOR/CER by preparing the Virtual Community Engagement Studio Toolkit; (2) to summarize new research questions and evidence needs across mothers, providers and researchers in Community Engagement Memos; and (3) to implement dissemination strategies as recommended by stakeholders and compiled in the MMHRC Virtual Community Engagement Strategy.

Role: Consultant

NARSAD Early Career Investigator Brain and Behavior Foundation

September 2017- June 2021

Title: Reducing Early Mortality in People with Serious Mental Illness

KAREN L. FORTUNA

46 Centerra Parkway Suite 200; Lebanon, NH 03766 | (603) 722-5727 | Karen.L.Fortuna@dartmouth.edu

Objectives: This award will support the development and testing of a peer-delivered integrated medical and psychiatric self-management intervention for adults with serious mental illness and chronic health conditions. Exploratory outcomes include reduction in early mortality risk factors.

Role: Principal Investigator

T32 MH073553-11 Bartels (PI)
National Institute of Mental Health

May 2015 – July 2018

Title: Training Geriatric Mental Health Services Researchers

Objectives: This award provides salary support and research training in geriatric mental health services for postdoctoral fellows. The fellowship includes supervision from senior researchers at four sites: Dartmouth Geisel School of Medicine, Weill Cornell Medical College, the University of Michigan and the University of Washington.

Role: Research Fellow

Summer Training on Aging Research Topics - Mental Health--Fortuna (PI)

2007

National Institute of Mental Health

Title: Bipolar Disorder in Older Adults
