## "Trans Allyship and Affirmations in STEM"

Anti-Racism Seminar with  
**Kyle Trenshaw, PhD**

Join via Zoom

1/10/23 @ 12pm EST

Kyle Trenshaw, a transmasculine pansexual person working in STEM at an R1 institution, will provide a summary of his chapter "Local Maxima and Minima in Trans-STEM Affirmations" from the book *Queering STEM Culture in US Higher Education* and offer time for questions and discussion with the audience. The chapter describes his journey through multiple personal and professional experiences with identity development and allyship and offers some guidance for non-trans non-queer folks in STEM in being an ally to their queer and trans students and colleagues.
