

Figure 2. Adjusted Low Birth Weight Rates by Neonatal intensive Care Regions.

Regions above, below and not significantly different from the national rate (6.0 per 100 singleton live births) are indicated by color.

-  Rates significantly ($p < 0.05$) above national rate (98 Regions)
-  Rates not significantly different from national rate (81 Regions)
-  Rates significantly ($p < 0.05$) below national rate (67 Regions)
