

## FEATURED STORIES

### Geisel Academy Prepares Faculty for AI & Scholarship in Healthcare Education

Last summer, Geisel's Academy of Educators and Scholars offered an eight-session Foundational Skills Series on Generative AI in Healthcare Education, equipping health science and professions educators (HSPEs) across Geisel with hands-on experience in AI applications. Topics ranged from creating exam questions and building educational apps to teaching communication skills with virtual AI patients.

### Geisel Faculty Candidate Seminar Tenure-Track Faculty Position in Biomedical Data Science

The Department of Biomedical Data Science and the Center for Quantitative Biology (CQB) at Geisel invites the Geisel community to attend a faculty candidate seminar on Wednesday, February 4, 2026 from 1:00 - 2:00 PM at DHMC, Auditorium H or on Zoom with Yuqi Tan, PhD. In this talk, Yuqi will present how modern AI and machine learning methods, ranging from classical machine learning models to generative AI, are redefining the analysis of 2D and 3D spatial omics data, illustrating how these approaches enable functional cell type discovery, cancer subgroup identification, and in silico spatial experimental design, translating data into actions for precision medicine. Refreshments will be provided! Zoom Link: <https://dartmouth.zoom.us/j/5037795102> (Zoom passcode: 1984650).

## HR UPDATES

### Professional Development:

**Ignite Series:** Our next Ignite Series training will be on Thursday, February 19, 2026. The topic will be on wellness options available at Dartmouth College.
