Hannah Bahram Pour

MS in Epidemiology

Full Name

Hannah Bahram Pour

Preferred Name

Hannah

Phonetic Spelling

Ha-ann-uh Ba-ram Por

Pronouns

she/her/hers

Current City

Lebanon, NH

Undergraduate Degree(s)

B.S. in Global Health,
University of Washington

Biography

I'm very excited to continue my education through an MS in Epidemiology at Dartmouth! As a recent college graduate, I feel very lucky to be able to continue my educational journey and further pursue my interest in public health. Throughout my undergraduate experience, I had the opportunity to work on multiple research projects, allowing me to build a passion in epidemiology. I am interested in learning more about the intersection of epidemiology and data science, particularly the potential applications of machine learning.

Where do you see yourself in five years?

In five years, I hope to be furthering my passion and knowledge by completing a PhD in Epidemiology or Quantitative Biomedical Sciences. I see myself continuing to academically challenge myself and pursuing my love for epidemiology, in academia, industry, or both.

Activities/Interests

I spend my free time reading books, watching TV series, or hanging out with my friends and family.

Izzy Baldacci

MS in Health Data Science

Full Name

Isabella Baldacci

Preferred Name

Izzy

Phonetic Spelling

iz-ah-beh-la bal-dah-ch-ee

Pronouns

she/her

Current City

Lebanon, NH

Undergraduate Degree(s)

B.A. in Molecular and Cellular
Biology - Neurobiology,
University of California Berkeley

Biography

I am thrilled to join the M.S. in Health Data Science program. After completing my undergraduate studies in neurobiology, I took a position at a biotech company. For the past two years, I have run experiments to assess models of neurodegenerative disease, and have been continuously inspired by the ways that advanced technology and analysis can lead to more impactful discoveries. In my career, I aim to advance research in human disease, whether that be in the realm of neurodegenerative disease, drug target discovery, or genetic disorders. This program will give to the tools to do so.

Where do you see yourself in five years?

In five years, I see myself working in the biotechnology industry to advance discoveries in neurodegenerative disease. I hope to have contributed to a major discovery or to have built a computation tool that research scientists can use to more powerfully analyze their data.

Activities/Interests

I like to spend my free time staying active and taking care of my health, whether that is lifting, going on a jog with some friends, rock climbing, or flying trapeze. I also love to spend time with friends exploring new places or having a good movie night.

Donna Cash

MS in Epidemiology

Full Name

Hayley Cash

Preferred Name

Donna

Phonetic Spelling

[HAY] + [LEE]

Pronouns

She/her

Current City

Charleston, SC

Undergraduate Degree(s)

B.S. in Biochemistry and Molecular Biology, University of South Carolina

Biography

I am ecstatic to be joining The Geisel School of Medicine's MS program in Epidemiology. The focus of my Undergraduate studies was on the mechanisms behind protein interactions, specifically disease mechanisms. Now, I would like to use this knowledge to understand the external mechanisms contributing to disease. My goal is to use this knowledge to make me a better physician, through a more well-rounded understanding of the factors resulting in the spread of disease, as I continue on my path towards higher education.

Where do you see yourself in five years?

In five years, I see myself about to graduate from Medical school and continue on to my residency. I am extremely hopeful that Dartmouth will give me the skills and confidence to continue down this path of medicine. I hope to become an immunologist or pediatric surgeon.

Activities/Interests

In my free time, I play the violin and I hope to participate in Dartmouth's Symphony Orchestra. I also love video games and pinball and have won tournaments alongside my dad for the past 15 years. I also have two dogs named Buffy and Angel.

Eric Chen

MS in Health Data Science

Full Name

Changfeng Chen

Preferred Name

Eric

Pronouns

He/His

Current City

Lebanon, NH

Undergraduate Degree(s)

B.S in Statistics, Lehigh University

Biography

I am eager to join the M.S. In Health Data Science program in Dartmouth. With a B.S. in Statistics in Lehigh University, I have developed a strong foundation in data analysis and statistical methods. My interest lies in applying data science and machine learning methodologies in solving complex real world issues. I am looking forward to leveraging my skills to make a significant impact on public health by providing data-driven insights and solutions.

Where do you see yourself in five years?

In five years, I see myself as a data scientist in the healthcare industry, utilizing advanced analytics and machine learning to predict health outcomes and improve the healthcare services.

Activities/Interests

I like doing some workout, sometimes playing the drumsets in my free time.

Henry Cui

MS in Health Data Science

Full Name

Haoyang Cui

Preferred Name

Henry

Phonetic Spelling

H-all, sounds like 'young' tsui

Pronouns

he/him/they/them

Current City

Jinan, Shandong

Undergraduate Degree(s)

B.S. in Math and CS,
University of Toronto

Biography

I am excited to join the health data science program at The Geisel School of Medicine. During my undergraduate studies, I studied mathematics, physics, and computer science simultaneously but was uninterested in them. However, I think HDS is very valuable and will significantly impact our future as a multidisciplinary course. This renewed my passion for knowledge.

Where do you see yourself in five years?

I am very optimistic about the direction of my current studies. My next goal should be to combine mathematical science, mechanical learning, and life science. I think there's a future in this field.

Activities/Interests

When I have limited free time, I usually focus on meditation. I prefer to walk alone in the quiet streets. If you give me a lot of time, I may plan to read some novels or study the knowledge I am interested in.

Isha Ganavdiya

MS in Health Data Science

Full Name

Isha Ganavdiya

Preferred Name

Isha

Phonetic Spelling

Ee-Sh-Aa Ga-naa-va-di-yaa

Pronouns

She/her

Current City

Indore, Madhya Pradesh

Undergraduate Degree(s)

B.E. in Electronics and
Communication, R.G.P.V.

Graduate Degree(s)

P.G.D.M. in Healthcare
Management, Goa Institute
of Management

Biography

I have worked for four years in healthcare IT set-ups and I am now excited to take the next step in my career and pursue a Health data Science program from Dartmouth college. I am an engineer and also hold a diploma degree in Healthcare management. I am passionate about making healthcare delivery better for everyone by leveraging the latest and booming technologies and more precisely utilizing healthcare data to make useful sense out of it.

Where do you see yourself in five years?

I see myself working with one of the leading Healthcare IT companies as a data scientist.

Activities/Interests

I am an outdoor loving person, and like to spend my free time going on long walks and exploring nearby places.

[Return to Table of Contents](#)

Deepthi Gangiredla

MS in Medical Informatics

Full Name

Lakshmi Deepthi Gangiredla

Preferred Name

Deepthi

Phonetic Spelling

Lak-sh-mi Deep-tea
Gang-ee-red-la

Pronouns

she/her/hers

Current City

Frisco, TX

Undergraduate Degree(s)

B.S in Computational and
Systems Biology, University
of California, Los Angeles

Biography

I am looking forward to joining The Geisel School of Medicine's Medical Informatics program this summer! After my undergraduate studies, I joined a healthcare company where I worked in the intersection of health sciences and technology to develop digital health solutions. At Dartmouth, I hope to further explore this interdisciplinary field to understand how biology, public health, and data science can be leveraged to improve patient outcomes. I hope to learn how to identify gaps in clinical care and modernize healthcare to help meet every patient's unique needs.

Where do you see yourself in five years?

I would like to contribute my learnings to promote enhanced health and diagnosis in the realm of medicine. In 5 years, I hope to work in either government healthcare services, hospital systems, or healthcare startups developing innovative solutions to modernize healthcare.

Activities/Interests

During my free time I love to go on hikes and explore new coffee shops. I also enjoy traveling, cooking, and have recently started to learn how to crochet!

[Return to Table of Contents](#)

Annie Glenning

MS in Health Data Science

Full Name

Anne Glenning

Preferred Name

Annie

Phonetic Spelling

Ann Glenn-ing

Pronouns

She/Her

Current City

Rochester, NY

Undergraduate Degree(s)

B.S. in Mathematics, Bucknell University and B.A. in Classics and Mediterranean Studies, Bucknell University

Biography

I am thrilled to start my Masters in Health Data Science at Dartmouth this summer. After studying pure mathematics for the past 4 years, I am eager to apply my mathematical skills in the field of public health. Specifically, I am interested to learn about collecting data in public health, such as pharmaceutical trials, and how to derive meaningful conclusions from it.

Where do you see yourself in five years?

In five years, I want to be conducting statistical analyses on pharmaceutical or other public health trials, trying to determine patterns in the data collected.

Activities/Interests

In my free time, I love being outdoors and staying active through hiking, swimming, or playing golf. While indoors, I indulge my creative side, and I love drawing and painting.

[Return to Table of Contents](#)

Sabin Hart

MS in Health Data Science

Full Name

Sabin Hart

Preferred Name

Sabin

Phonetic Spelling

SAY-bin Hart

Pronouns

He/Him

Current City

Burlington, VT

Undergraduate Degree(s)

B.A. in Quantitative Social Science, Dartmouth College

Biography

I am excited to return to Dartmouth for one year to complete my academics. I have always been interested in the Healthcare field and working in Quantitative Social Science has confirmed my love of data science. My work experience and academic work have centered on pediatric care and improving outcomes for children but I am open to learning about all areas of health.

Where do you see yourself in five years?

I want to work in healthcare data science. Whether that be as a healthcare consultant, data specialist at a hospital, or owner of a start-up I am not yet sure.

Activities/Interests

I love a lot of things: reading, playing games, working out, playing volleyball and tennis, listening to music, and learning to cook.

[Return to Table of Contents](#)

Donovan King

MS in Epidemiology

Full Name

Donovan King

Preferred Name

Donovan

Phonetic Spelling

Don-uh-van

Pronouns

He/Him

Current City

Claremont, NH

Undergraduate Degree(s)

BS Liberal Studies, Mountain State University

Graduate Degree(s)

MS Biology, Plymouth State University

Biography

I'm excited to be attending the Geisel School of Medicine's epidemiology program. I have an MS in Biology and worked as a stream ecologist before joining the Karagas lab here at Geisel. It's my experience with community level biology that sparked my interest in epidemiology. Many years ago I attended a lecture by Dr. Chen of Dartmouth about the work she and Dartmouth's Dr. Cottingham did on mercury methylation in river impoundments. I suspect that such sorts of ecosystem processes have a reasonably predictive correlation with the local human population and hope to look into this.

Where do you see yourself in five years?

I see myself continuing to take education opportunities to improve the skill set I bring to my lab and expanding the scope of collaborative research our body of data can support.

Activities/Interests

I like being outdoors kayaking or hiking, or working on and riding my motorcycles. I enjoy managing the aquatic zoo my young daughter convinced me to collect and playing video games with her when she's away at her mom's.

[Return to Table of Contents](#)

Sarah Mirza

MS in Medical Informatics

Full Name

Sarah Mirza

Phonetic Spelling

SAR-uh MIR-zuh

Pronouns

she/her

Current City

Fremont, CA

Undergraduate Degree(s)

B.S. in Biomolecular Engineering and Bioinformatics, University of California, Santa Cruz

Biography

I am excited to join The Geisel School of Medicine's MS in Medical Informatics program. When I was younger I thought I was destined for an MD-PhD but I soon realized that I also wanted to use my technical skills as well. I decided to do my undergrad in bioinformatics but knew I wanted to pursue a higher education. I knew I wanted to do more research and wanted to study at a medical school to be exposed to a wider scope of research.

Where do you see yourself in five years?

I am skeptical to make assumptions about my life in five years because life is unexpected but I hope I am happy and helping people in one way or another.

Activities/Interests

I like to read, listen to music, paint, watch TV shows I have already seen several times, and journal.

[Return to Table of Contents](#)

Delaney Reese

MS in Epidemiology

Full Name

Delaney Reese

Preferred Name

Delaney

Phonetic Spelling

Duh-lay-nee Rees

Pronouns

She/her

Current City

Lebanon, NH

Undergraduate Degree(s)

B.S in Neuroscience,
William & Mary

Biography

I recently graduated from William & Mary and am excited to continue my education at Dartmouth. My interests in public health and epidemiology started in undergrad, where I minored in Public Health and Data and volunteered with a nonprofit to provide healthcare access to remote areas. Within this program, I am looking forward to acquiring the technical skills that I can use to further explore my interests in cancer epidemiology and expanding healthcare access.

Where do you see yourself in five years?

I see myself working as an epidemiologist for the CDC or a local or state health department in the next 5 years.

Activities/Interests

In my free time, I enjoy reading, watching reality TV, and yoga. I also love going to concerts, watching sports, and trying new coffee spots.

Elodie Richard

MS in Epidemiology

Full Name

Elodie Richard

Preferred Name

Elodie

Phonetic Spelling

Elle-ah-dee

Pronouns

she/her

Current City

Allen, TX

Undergraduate Degree(s)

B.S. in Neuroscience,
Trinity University

Biography

I am excited to be attending Dartmouth College. I recently graduated college and my goal was medical school. I was planning on taking a gap year but then I discovered the Epidemiology program at Dartmouth. This program is really exciting because I want to expand my knowledge and develop new skills related to healthcare.

Where do you see yourself in five years?

I hope to either be in Medical School or working in a job that I really enjoy. I want to be in a place where there are always new things to be discovered. Most importantly I hope that whatever I am doing is impactful in some way.

Activities/Interests

I love playing tennis, reading books with my friends, cooking and baking. I am also a big traveler and I am especially excited to be living in a place with ski hills close by.

[Return to Table of Contents](#)

Rob Ross-Shannon

MS in Health Data Science

Full Name

Robert Ross-Shannon

Preferred Name

Rob

Pronouns

He/Him

Current City

Lebanon, NH

Undergraduate Degree(s)

B.S. in Biomedical Engineering,
Miami University (OH)

Biography

I am extremely excited to be joining The Geisel School of Medicine's MS in Health Data Science. After working as a Research Technologist at Northwestern University, primarily focusing on wet lab research, I realized my true passion was in data analytics. I pivoted careers and joined Tempus AI as a Clinical Data Analyst where I gained further appreciation for the power of data in transforming the lives of individuals' affected by disease. I am looking forward to advancing my technical abilities and broaden my knowledge of data science to help future patients.

Where do you see yourself in five years?

In five years, I hope to be working with RWE as a data scientist to help patients affected by cancer. I've had multiple personal and professional experiences dealing with the battle against cancer and I hope use the education from this master's program to advance personalized treatment for cancer patients.

Activities/Interests

As a Colorado native, I've come to love spending my free time outdoors. I like to go on hikes, ski/snowboard, and just relax outside!

Antara Sengupta

MS in Health Data Science

Full Name

Antara Sengupta

Preferred Name

Antara

Phonetic Spelling

An-tah-ruh Sen-goop-ta

Pronouns

she/her/hers

Current City

Redwood City, CA

Undergraduate Degree(s)

B.S. in Cognitive Science specializing in Machine Learning and Neural Computation, University of California San Diego

Biography

I'm excited to join Dartmouth's M.S. program in Health Data Science! Graduating from UC San Diego in mid-June, I look forward to moving coasts to continue my studies. Building upon my undergraduate education in cognitive and data science, I'm interested in exploring the intersection between neuroscience and data science, and building technology to improve quality of life for individuals with neurological disorders. I'm looking to strengthen my knowledge in the health sciences, and expand my skillset of applying computational techniques to biological data. I'm eager to get involved with research on campus, while meeting and learning from my peers!

Where do you see yourself in five years?

I see myself working in the biotechnology industry as a Data Scientist. I specifically aspire to utilize neurological data to build tools that help individuals on the autism spectrum within academic settings. I also hope to be involved in development of technologies for early diagnostics and interventions.

Activities/Interests

I enjoy spending time with friends, beach days and ocean swimming (or anything water-related!), trying coffee shops, reading, attending concerts and traveling. Having lived most of my life in California, I'm excited to experience the East Coast and hope to explore nearby cities like Boston and Montreal!

Jaini Shah

MS in Health Data Science

Full Name

Jaini Shah

Preferred Name

Jaini

Phonetic Spelling

Jay-nee Shah

Pronouns

She/Her

Current City

Exton, PA

Undergraduate Degree(s)

B.S. in Health Sciences,
Drexel University

Biography

I am excited to continue my education at Dartmouth College. I want to learn more about the data and management level of health sciences and either hope to get my PhD or MD after my MS. I want to indulge myself in research opportunities at Dartmouth and learn about each step of the process. I want to specialize in Cardiology and CVD while conducting research studies of my own. Learning how to understand the data collected will give me a better perspective on which direction the research is going.

Where do you see yourself in five years?

I either see myself completing Medical School and starting my residency or I see myself with my PhD conducting high level medical research of my own. I would love to work for a biopharma company in the future that leads groundbreaking research.

Activities/Interests

I enjoy going to the gym and powerlifting. I want to get back into running to experience that runner's high once again. I also have picked up reading recently; I love a good series. I also enjoy just relaxing and staying in on a Friday night with takeout!

Lexa Trembl

MS in Health Data Science

Full Name

Alexandra Trembl

Preferred Name

Lexa

Phonetic Spelling

Alex-and-rah Treh-muhl

Pronouns

she/her

Current City

Harrisonville, PA

Undergraduate Degree(s)

B.S. in Integrated Science and Technology, James Madison University

Biography

I have been a professional data scientist consultant for 4 years, working primarily on Federal use cases. My undergraduate degree focused heavily on combining my robotics minor with my biosystems coursework, including publications on bacteriophage discovery and ‘The Artificial Leaf’, and creating an expedited PCR lab protocol. As a data scientist and musician, I have felt drawn to shifting my professional work back towards the health realm. I am incredibly interested in how the combination of AI and musical frequencies can provide less-invasive and more accurate diagnostics for chronic illness patients.

Where do you see yourself in five years?

In five years, I see myself working as a liaison between robotic technologies, and health and soil data to provide more nutritious, organic food to communities. I also envision myself working directly with physicians and biomedical engineers to create less-invasive diagnostics to detect tumors.

Activities/Interests

I am moving to the Upper Valley from Denver, Colorado, where I got outside as much as possible! I enjoy rock climbing, ice climbing, running trail races, fly fishing, and skiing/touring! I also love campfires with friends and a good book!

[Return to Table of Contents](#)

Biratal Wagle

MS in Health Data Science

Full Name

Biratal Wagle

Preferred Name

Biratal

Phonetic Spelling

Bee-rah-tuhl Wah-glay

Pronouns

He/Him

Current City

Manama, Capital

Undergraduate Degree(s)

B.Sc Physics (Hons) Ashoka University

Graduate Degree(s)

PGDip in Advanced Studies and Research (Computer Science), Ashoka University

Biography

I am excited to continue my my studies in Quantitative Biomedical Sciences at Dartmouth. Coming from a Physics and Computer Science background, my introduction to the field came through research projects during my undergraduate, and a research role afterwards. I focused on using Computer Vision and Machine Learning techniques to extract and quantify data from images of cells. In particular, I am interested in developing software for research in Biology, and generating data-driven insights to create a positive change in healthcare.

Where do you see yourself in five years?

My primary desire remains to contribute towards Biomedical research. I see two paths toward this goal, and in five years will either be finishing my PhD, or working as a researcher in industry in developing tools for Computational Biology.

Activities/Interests

I love to take walks with friends, talking about random things till late in the evening. This generally ends with me serving them the latest recipe I've been testing out or gushing about the most recent book or video game I am obsessed with.

Amy Wang

MS in Medical Informatics

Full Name

Mo Qi Wang

Preferred Name

Amy

Phonetic Spelling

Muh Tsee

Pronouns

She/ her

Current City

Edmonton, AB

Undergraduate Degree(s)

B.S., University of Alberta,
B.Sc.N., University of Alberta

Biography

I am excited to be joining the MS in Medical Informatics program. I have been a registered nurse in the intensive care unit for five years. My experience has led to an interest in how subjective health data can be condensed and interpreted to improve health outcomes and health delivery systems. I look forward to collaborating with my peers to gain the knowledge and skills used to improve patient outcomes.

Where do you see yourself in five years?

In five years I hope to be working in a role that helps improve access to healthcare and improves healthcare delivery.

Activities/Interests

In my spare time I can be found hiking in the summer, and skiing in the winter. Year round I love exploring new hobbies including crocheting, painting and metalworking.

Luwei Zeng

Preferred Name

Laura

Phonetic Spelling

Lu-Wei Zi-eng

Pronouns

She/her

Current City

Wenzhou, Zhejiang

Undergraduate Degree(s)

B.S. in Business Administration,
Boston University

Graduate Degree(s)

M.S. in Finance, University of
Rochester

Biography

With a solid foundation in business administration (BSc) and finance (MSc), complemented by experience in the edtech media sector, I have developed strong management skills, strategic insight, and teamwork abilities. Currently pivoting to medical informatics, I am inspired by the potential of technology to improve healthcare outcomes. I'm thrilled to be part of Dartmouth's MSc in Medical Informatics program, where I aim to transform my passion into practical applications that benefit society and enhance healthcare decision-making.

Where do you see yourself in five years?

In five years, I see myself at the forefront of a health tech company, leading projects that harness data analytics to innovate patient care. My career goal is to positively impact healthcare delivery by integrating advanced technology with a holistic approach that respects patients' cultural and personal values.

Activities/Interests

I'm always up for new adventures—my motto is “just do it!” Whether I'm hiking up a mountain, attempting to snowboard, or trying my hand at deep-sea fishing (expert at none, enthusiast of all!), you'll find me outdoors. Traveling fuels my soul! I am also an animal lover!

Bingquan

Phonetic Spelling

Bingquan Zhang

Pronouns

Mr

Current City

Hanover, NH

Undergraduate Degree(s)

B.A (Hon) in Business Enterprise, University of Warwick. B.A in Economics, Hubei University of Economics

Biography

I am excited to have the opportunity to pursue a Master's degree in Health Data Science at Dartmouth. This project perfectly aligns with my interest in public health and data analysis. In my previous internship experience, I developed a strong interest in public health, which led me to enter a new field of learning for students from a business school. I believe that this project can fully meet my learning needs in the fields of data science and public health and help me make a difference in my future career in public health.

Where do you see yourself in five years?

I will have a job with a decent income in five years.

Activities/Interests

I really enjoy traveling and exploring. I enjoy exploring different places and cultures around the world, so whenever I have free time, I will set out to travel to different places.

Echo Zhou

MS in Health Data Science

Full Name

Jiatong Zhou

Preferred Name

Echo

Phonetic Spelling

jiar-tong zhoh

Pronouns

She/Her/Hers

Current City

Wuxi, Jiangsu

Undergraduate Degree(s)

B.S. in Computer Science & Technology, Soochow University

Graduate Degree(s)

M.S in Computer Science, Soochow University

Biography

I am looking forward to continuing my studies at Dartmouth. I majored in computer science as an undergraduate, but recently discovered research in health data science and developed a strong interest in it. I am interested in studying health data science and practically applying the computer skills I have acquired in the field of healthcare in order to help more people who have experienced or are experiencing unscientific treatments.

Where do you see yourself in five years?

I hope that in five years I will be working as a data analyst, undertaking user data analysis or treatment plan evaluation for hospitals or healthcare companies.

Activities/Interests

I love ice skating and am interested in skiing. I am a huge fan of stage play and appreciate all kinds of live performing arts. I also enjoy going to karaoke to release myself when I'm stressed.
