

Work day: 7:30 am-5 pm

Required Conferences:

GI conference Wednesdays 7-8am, Level 4 GI conf room or via WebEx

GU conference Thursdays 7-8am, WebEx

Responsibilities

1. Review 1st case and be ready to perform the exam by 8 am
2. Perform examinations, staff them with attending, dictate
3. Interpret & dictate abdominal radiographs
4. Case Work Ups (split these with the RT and PA): Email to Crista, Ashley & the next day's attendings
5. Protocol cases (split these with the PA)
 - Choose correct contrast agent for cases
6. Interpret Abdomen/pelvis CT exams.
 - a. Draft to 'fluoro attending' list (or staff out with body Rad if the fluoro attending is unable to staff it)
7. Read & study daily, following the Recommended Reading list on the website
8. Read the Goals & objectives for the rotation and ensure you are achieving them

Fluoroscopy Mini Work- Up Template

Please fill out the template (below) for each patient on the fluoroscopy schedule

-Purpose: *This is done to ensure that the ordered exam is appropriate to answer the clinical question, and to look for any potential issues so they can be addressed before the patient arrives (ie contrast allergies, wrong exam scheduled, clarification of what the clinical concern or what technique to use, etc).*

-These should be completed *at least* 24 hours before the scheduled exam.

Template

Patient initials

Exam:

Indication:

Relevant allergies:

Prior recent endoscopy & imaging (ONLY if relevant):

Your plan:

Details

* Modified swallows do NOT need a work up

Relevant allergies (ie to strawberry flavor, contrast, barium)

Prior endoscopy & imaging (if they impact your plan. Don't just list dates-discuss what was seen & how it impacts the upcoming fluoro study. If they don't impact it, you can just write n/a

Your plan: (ie specify double vs single, & what kind of contrast, any variation to standard technique needed?) 'ROUTINE' is not adequate
