Office of
MEDICAL STUDENT
RESEARCH

Weekly Newsletter

Nov 20, 2025

The Student Research Office is actively supporting medical students throughout their research journey, serving as a central resource to help navigate onboarding requirements and connect with opportunities across departments. The office regularly shares active research projects and offers guidance on how to get involved.

Students are strongly encouraged to visit the office at **Remsen 230** for any research-related information and to begin their research journey.

Contact: Medical.Student.Research@dartmouth.edu

Congratulations to all participants and presenters at the Annual Medical Student Research Poster Night, and your dedication, innovation, and scholarship exemplify the spirit of research excellence at Geisel.

Kudos again to this year's **Best Poster Award** recipients.

Upcoming Co-curricular interdisciplinary seminars

When: December 4th | 7:00 AM – 8:00 AM

Where: Chilcott

Topic – How to Read a Research Paper by Dr. Gardner

Featured Opportunities

Research Project in Medical Education

Students interested in conducting research in the Department of Medical Education, explore more here : <https://geiselmed.dartmouth.edu/medical-education/>

Students interested in these research opportunities are encouraged to contact Medical.Student.Research@dartmouth.edu for more information and guidance.

Psychiatry Research

Clinical Interventions : Faculty develop and evaluate innovative interventions for diverse populations.

Research Areas include;

- Brain stimulation and
- psychotherapy
- Trauma-informed care
- Digital mental health tools
- Caregiver and music therapy
- support
- GI behavioral health
- Interventions for dementia,

- PTSD, and serious mental
- illness

Students interested in these research opportunities are encouraged to contact Medical.Student.Research@dartmouth.edu for more information and guidance.

JOHNS HOPKINS
MEDICINE

Medical Student Training in Aging Research (MSTAR) Program
Johns Hopkins University School of Medicine

The **MSTAR** Program at Johns Hopkins provides medical students early in their training with an enriching experience in aging-related research and geriatrics, under the mentorship of top experts in the field.

Enjoy:

- 60 continuous days of summer research program in Baltimore, Maryland with flexible start/end dates, (starting on or after June 2, 2026)
- Approximate monthly stipend of \$2,352 (housing not included)

Terrific opportunities:

- Conduct aging research with excellent faculty
- Exposure to geriatric medicine in various clinical settings
- Enhance epidemiology, biostatistics and other research related skills
- Attend didactics on geriatric medicine and other health related topics
- Meet with leaders at Johns Hopkins Medicine and Johns Hopkins Bayview

The 2026 MSTAR Program application process is now open!
Deadline to apply is January 9, 2026 at 11:59p.m. EST
To obtain guidelines and download the application, please go to link:
[2026 JHU MSTAR Application & Instructions](https://www.hopkinsmedicine.org/geriatric-medicine-gerontology/education/medical-students/mstar)

For additional information, please contact:
 Linda Holmes (L Holmes10@jhmi.edu) or visit the Johns Hopkins Geriatrics Medical Education and Training website: <https://www.hopkinsmedicine.org/geriatric-medicine-gerontology/education/medical-students/mstar>

NEW ENGLAND STUDENT UROLOGY SYMPOSIUM

At The UConn School of Medicine

MARCH 7 8:00AM - 5:00PM

Join us for a unique opportunity for medical students interested in urology to connect with peers and faculty, explore the specialty, and showcase their research. The day will feature state-of-the-art lectures, interactive faculty panels, hands-on urology surgical skills fair, and both poster and oral presentations.

REGISTER:

Due Feb 16 at 11 pm

SUBMIT AN ABSTRACT:

Due Feb 6 at 11 pm

<https://medicine.uconn.edu/urology-symposium/>

NIH Medical Research Scholars Program

NIH Medical Research Scholars Program welcomes the 2025-2026 class

Applications for the 2026-2027 NIH Medical Research Scholars Program [cc.nih.gov] are still being accepted and must be fully completed and submitted by DECEMBER 1, 2025 at 5:00PM EST.

The NIH MRSP Team will conduct a live, virtual informational webinar this Thursday, November 20th at 1:00PM (EST) via Teams.

Click Here for more information or to share the Registration information [events.gcc.teams.microsoft.com]

<https://www.cc.nih.gov/training/mrsp>

Swigart Ethics Fellowship

This opportunity supports three to five Geisel students who will work collaboratively with a faculty mentor on a clinical ethics–focused project that enhances patient care and/or ethics education.

The application deadline is **December 2, 2025**. The fellowship will take place during the 2026–2027 academic year. Each selected student will receive a \$2,500 stipend, and the faculty mentor will receive a \$500 honorarium. The project should involve approximately 200 hours of work in total. Fellows are expected to give a public presentation in March 2027 and produce a final

product, such as a manuscript, poster, or professional presentation, by the end of the fellowship.

For more information, please visit the link at

<https://geiselmed.dartmouth.edu/student-research/olive-m-and-joseph-f-swigart-ethics-fellowship/>

Students interested in applying or with questions may reach out directly to *Dr. Evie Marcolini* at Evadne.G.Marcolini@hitchcock.org

Specialty Research Grant/Funding for Medical Students

Paid Summer Research Opportunity at Harvard Medical School for 1st and 2nd year Medical students

HARVARD CATALYST
 Harvard Clinical & Translational Science Center

**visiting research
internship program**

Sponsored by Harvard Catalyst and the Office for Culture and Community Engagement at Harvard Medical School, the Visiting Research Internship Program is an eight-week paid, mentored, summer research program designed to enrich medical and dental students' interest in research and health-related careers, particularly careers in clinical/translational research.

Program Dates

Monday, June 1—Friday, July 14, 2016 (tentative)

Benefits

- Paid Internship
- Mentored Clinical Research on a topic of interest proposed by the student
- Weekly Seminars with Harvard faculty on topics ranging from research methodology, health equity, to career development
- Travel Compensation of up to \$400 toward the cost of traveling to and from Boston
- Housing

Eligibility

- First and second year medical and dental students in good standing at an LCME, COCA, or CODA accredited school
- US citizen, National, or Permanent Resident

Application

Access the online VRIP application at occe.hms.harvard.edu/paths/opportunity/visiting-research-internship-program. A completed application is comprised of the following:

- Statement of Purpose
- Short Answer Questions
- Resume/Curriculum Vitae
- Official electronic transcripts from all undergraduate and graduate/professional institutions attended, including your current medical/dental school sent to VRIP_OCCE@HMS.Harvard.edu
- Two letters of recommendation from a current or past faculty member, instructor, research advisor, or supervisor who is familiar with your work.
- Copy of medical insurance card and proof of immunizations

Dates and Deadlines

- October 15, 2015: VRIP Application opens
- January 5, 2016: Deadline for delivery of the completed application and all supporting documents
- February, 2016: Notification of 2016 VRIP Recipients
- June 1—July 14, 2016: Program (tentative)

Harvard Catalyst

Founded in May, 2008, Harvard Catalyst—the Harvard Clinical and Translational Science Center—is dedicated to improving human health by enabling collaboration and providing tools, training, and technologies to clinical and translational investigators. Harvard Catalyst is supported by a grant from the National Center for Research Resources, which is part of the National Institutes of Health, and commitments from several of its partner organizations.

The Office for Culture and Community Engagement (OCCE)

The OCCE at Harvard Medical School (HMS) serves to advance education in the health, biomedical, behavioral, and STEM fields that build individual and institutional capacity to achieve excellence and foster innovation in health locally, nationally, and globally. We are committed to academic freedom and creating a thriving community that is pluralistic, inclusive, and promotes excellence in teaching, learning, discovery, scholarship, service, and leadership.

SUMMER 2026 HEALTH EQUITY INTERNSHIP

Host: [Center for Urban Health Equity, Morgan State University](#), Baltimore, Maryland

Eligibility: Currently enrolled Medical (M1 and M3) and Health Sciences Education students at Geisel/Dartmouth (including students who will graduate in 2026). PhD students are not eligible.

Duration: 4-6 weeks in July-August, with a minimum of 2 weeks on-site at the host school

Format: Fully in-person or Hybrid (In-Person/Virtual)

Coverage of Internship Expenses: Rooms and board covered by Morgan State University. Travel and other incidental costs covered by the Center for Global Health Equity at Dartmouth.

Application Deadline: Friday, December 5, 2025, at 11:59pm EST

Internship Overview: Interns will join a multidisciplinary team of clinical, public health, and community professionals to engage in community-based, health equity activities that seek to address social determinants of health in an urban setting. The intern will also be able to:

- Apply knowledge of personal strengths/tendencies to work well with teammates whose strengths/tendencies may differ
- Identify personal strengths and opportunities for growth related to written and oral communication in the workplace
- Learn about engaging individuals with lived experience in designing and implementing community-based health equity programs
- Learn about the concept of sustainability as it applies to health promotion and disease prevention

Key Responsibilities: Day-to-day activities will largely depend on the scope of the project; however, all interns should expect to:

- attend weekly one-on-one in-person or virtual meetings with supervisor to touch base on project-specific deliverable(s), goal-setting progress, evaluations, and completing documentation as required
- complete assigned themed readings and/or learning activities
- submit any agreed upon deliverables to the internship supervisor
- submit a 2-3 page reflection paper to the Center for Global Health Equity

To apply: Submit the following to CenterforGlobalHealthEquity@dartmouth.edu

- A current CV outlining your academic achievements and any relevant experience
- A statement of interest (max 500 words) expressing your motivation for applying to the internship and how it aligns with the qualification requirements above and future career aspirations.

*****Please combine CV and State of Interest into one PDF*****

For inquiries regarding the internship, please contact Tasha.Coleman@dartmouth.edu

2026 MEDICAL STUDENT RESEARCH AWARD Request for Applications

This is a summer research project for Medical Students, performed under the mentorship of an ACG member.

DEADLINE: MONDAY, DECEMBER 1, 2025, AT 11:59 PM EDT

APPLY: gi.org/research-awards

Award Amount: \$5,000 (\$500 per week, for a 6-10 week research project)

Award period/length of award: May 1, 2026 - August 31, 2026

AAOS 2026 Medical Student Program

Your Guide to Orthopaedic Surgery as a Career Choice

Tuesday, March 3
10 a.m. – 5 p.m.

Morial Convention Center
New Orleans, LA

Discover how your unique leadership skills can benefit your career in orthopaedic surgery.

The registration fee for the entire AAOS Annual Meeting is only \$75 for AAOS Medical Student Members*!

- 1** Apply for Medical Student Membership.
- 2** Register for the Annual Meeting.
- 3** Add the Medical Student Program to your registration (first-come, first-served).

*Must be a Medical Student Member to register for the AAOS 2026 Annual Meeting. It is free to join. Visit aaos.org/membership to learn more and join.

REGMS

RESEARCH EXPERIENCES FOR GRADUATE AND MEDICAL STUDENTS

APPLICATION DEADLINE: JANUARY 23, 2026

The Endocrine Society's Research Experiences for Graduate and Medical Students (REGMS) program offers promising students a comprehensive experience in endocrine research. Participants engage in collaborative lab work, receive expert mentorship, build professional networks, and enhance their professional skills through year-round activities.

USC Caruso Department
of Otolaryngology
Head and Neck Surgery
Keck School of Medicine of USC

PROGRAM ANNOUNCEMENT!

**Clinician-Scientist Training
Program for Medical Students**

PROGRAM AT A GLANCE

PROGRAM LENGTH 9-12 Months

START DATE July 1st, 2026
**with some flexibility*

FINANCIAL SUPPORT Stipend provided

APPLICATION DETAILS + MORE INFO
Please visit our site or contact the
program administrator (listed below)

The program is available to 2 medical
students per year, at any point during
training, and will extend graduation date by
one year.

**The USC Caruso Department of Otolaryngology-Head and Neck
Surgery clinician-scientist training program (CSTP)**

is a 9-12-month research track offering medical students the opportunity to be
involved in meaningful research experiences with close mentorship by world-class
faculty researchers. This program is funded by an NIH R25 grant.

- Spearhead your own research project that will help patients by discovering cures for disease
- Gain experience in working with cutting-edge experimental techniques
- Develop close mentoring relationships with research faculty
- Participate in structured didactics, seminars, conferences, and journal clubs
- Jumpstart your career in academic medicine by having a dedicated research experience

We are committed to training future generations of clinician-scientists from
underrepresented backgrounds. Our CSTP will provide the scientific resources,
mentorship, educational environment, and institutional support required to execute
this charge. Students from underrepresented groups as defined by the [NSF](#) are
strongly encouraged to apply.

THE UNIVERSITY OF TEXAS
MD Anderson Cancer Center

Med Students SOAR Program

Medical Students Summer in Oncology at Anderson Research

Program starts on June 01, 2026 (8-10 weeks)

Application deadline: January 14, 2026

This NCI-funded program supports first-year medical students participating in rigorous hands-on research experience to promote broader physician participation in all aspects of cancer research.

PROGRAM ACTIVITIES

- Hands-on scientific research with a faculty mentor
- Clinical observations
- Lectures and career conversations
- Interprofessional clinical simulation trainings
- Communication skills workshops/seminars
- End-of-program presentations of research

ELIGIBILITY

- Must be US citizen or permanent resident
- Must have completed first year at LCME- or COCA-accredited U.S. medical school
- Must have interest in cancer research
- Must start on June 1 and commit to full 8-10 week program

SUPPORT

- Stipend and research funds will be provided.

For more information, contact:
SOAR@mdanderson.org
www.MDAnderson.org/SOAR

Program Directors:
Martin F. McNamara, Ph.D.
Professor, Interventional Radiology Department, Diagnostic Radiology Division
Julian E. Griffin, M.D., Ph.D.
Associate Professor, Radiation Oncology Department, Radiation Oncology Division

SOAR @ MD Anderson Cancer Center | 2026

Med Students SOAR Program

The Medical Students Summer in Oncology at Anderson Research (Med Students SOAR) program, funded by the National Cancer Institute, offers first-year medical students an 8–10 week hands-on research experience. Students work with renowned faculty on individualized projects, gaining laboratory skills and insights into multidisciplinary, research-driven oncology care through lectures, workshops, clinical observations, and simulations. The program aims to inspire long-term careers in basic, translational, and clinical cancer research.

Fellowship opportunity for medical students interested in taking a year off to conduct clinical research. The fellowship is a year-long funded research program at The Children's Hospital of Philadelphia in the Division of Orthopaedic Surgery. Students interested in Orthopaedics who have completed their **second** or **third** year of medical school are eligible. There will be accepting applications on a rolling basis **until Nov 15**.

However, earlier applications are welcome and fellowship spots will be offered to the candidates on rolling basis.

For more information, <http://www.chop.edu/pages/benjamin-fox-orthopedic-research-scholar-award>

Stephen Marsh Tenney, M.D., Medical Student Fellowship

The Department of Molecular and Systems Biology at Geisel School of Medicine invites applications for the Stephen Marsh Tenney, M.D., Medical Student Fellowship. This annual award supports one year of full-time research for an M.D. student, preferably with a faculty mentor in the Department of Molecular and Systems Biology, though research in any Geisel department is eligible.

The fellowship provides a \$43,000 grant (\$40,000 stipend and \$3,000 for research expenses). Interested students for the 2026–2027 academic year (April 2026– March 2027) should discuss their plans with a potential mentor and

submit a CV, a two-page research summary, and a mentor letter to Cheryl Bush (Cheryl.A.Bush@Dartmouth.edu)

For more details and faculty mentors, visit <https://geiselmed.dartmouth.edu/msb/faculty/>

Pediatric Oncology Education (POE) Program

The Pediatric Oncology Education (POE) Program at St. Jude Children's Research Hospital, funded by the National Institutes of Health / National Cancer Institute, offers a unique opportunity for students preparing for careers in biomedical sciences, medicine, nursing, pharmacy, psychology, or public health. Participants gain hands-on experience in biomedical and oncology research through a short-term summer internship, with placements available in laboratory research or clinical research.

This program is an a good way for students to develop research skills, explore career paths in pediatric oncology, and contribute to advancing scientific knowledge.

More info : <https://www.stjude.org/education-training/predoctoral-training/internships/pediatric-oncology-education-poe-program.html>

Radiation Onc Medical Student Research Fellowship

Geisel medical students interested in pursuing a dedicated research year in Radiation Oncology are invited to apply for the Radiation Oncology Medical Student Research Fellowship. The fellowship provides a \$35,000 grant (including a \$32,000 stipend) and offers structured mentorship, research experience, and career development under the guidance of Dr. Charles R. Thomas, Jr., Chair of the Department of Radiation Oncology and Applied Sciences.

- Duration: 12 months maximum (10 minimum)
- Offered: medical student
- Faculty: Charles R. Thomas, Jr., MD

Dartmouth Climate Collaborative: Living Lab Grants Opportunity

The Dartmouth Climate Collaborative, a newly launched initiative funded by the Provost and President, aims to connect and enhance climate and sustainability-related research and teaching across all Dartmouth schools.

This fall, the Collaborative is launching the **Climate Collaborative Living Lab Grants** — \$30,000 grants for projects that use Dartmouth's campus and the greater New England community for climate and sustainability research and teaching. This year, there is a special focus on proposals at the **intersection of climate and health** from Geisel faculty. Medical students are eligible to apply with a faculty co-PI or sponsor.

A Geisel-specific info session will be held on **Wednesday, November 5, from 12:00–1:00 PM** for those interested in applying. Come learn more about this exciting opportunity!

MSTAR – Medical Student Training in Aging Research

The UNC-Chapel Hill Medical Students Training in Aging Research ([MSTAR](#)) summer program is now accepting applications for Summer 2026. The UNC-CH MSTAR program provides medical students with an enriching experience in aging-related research and geriatrics. As a nationally-recognized NIH training center for aging research, this program has an outstanding track record, with many of our students publishing first author manuscripts and winning awards at national meetings

Applications for the 2026 MSTAR Program open at the end of October 2025.

Student Spotlight

**Shivesh Shah , MD Class of 2026**

Shivesh Shah is a fourth-year medical student at the Geisel School of Medicine at Dartmouth pursuing a career ophthalmology. His research has spanned multiple fields but been unified by a commitment to improving patient outcomes through innovation in imaging and clinical care. He has co-authored over a dozen peer-reviewed publications including in the *American Journal of Ophthalmology*, *Ophthalmology Retina*, and *Clinical Ophthalmology* and presented his work at multiple national meetings.

Shivesh's research journey began with clinical orthopedics research at both Dartmouth and Massachusetts General Hospital before expanding into diabetes research driven by his interest in global health. This early work was presented at the American Diabetes Association and contributed to a deeper interest in microvascular disease, ultimately inspiring his transition to ophthalmology. This past year, Shivesh completed a dedicated year of research at Massachusetts Eye and Ear, where he studied the application of ultrawidefield swept-source optical coherence tomography angiography (SS-OCTA) in the setting of diabetic retinopathy. At Dartmouth, Shivesh continues to collaborate extensively with the Ophthalmology Department, an experience he credits to exceptional mentorship and an incredibly supportive community. He hopes to pursue a career in ophthalmology that blends imaging, innovation, and equitable diabetes-related eye care.

 Congratulations to the all participants and presenters at the Annual Medical Student Research Poster Night

Students who presented at Poster Night are encouraged to publish their poster abstracts in the GMSJ Journal.

For more information, please contact the **Editor-in-Chief of the GMSJ Journal**.

Scholarly Manuscripts by Geisel Students

Geisel students continue to drive innovation through research, contributing to peer-reviewed publications across clinical medicine, global health, and more. Their scholarly work reflects a deep commitment to scientific inquiry and advancing patient care. Each year, our students co-author numerous manuscripts, showcasing their passion for discovery and academic excellence.

<https://geiselmed.dartmouth.edu/student-research/research-papers-by-geisel-students/>

Students are requested to submit their published manuscripts to be archived in the Student Manuscript section of the website.

.

GMSJ

GMSJ is a student-led publication dedicated to showcasing the research, insights, and perspectives of medical students. It offers a hands-on opportunity to gain experience in academic publishing, including research dissemination, peer review, and scholarly writing—valuable skills for future careers in academic medicine.

We welcome submissions in the following categories:

- Original Research
- Abstracts & Posters
- Review Articles
- Case Reports
- Perspective or Reflection Pieces
- Innovations
- Others: including Visual and Creative Works (art, photography, design), etc.

Before submitting, please register for an account and review our Author Guidelines on our website. If you have any questions, please do not hesitate to reach out to help@gmscholars.com.

We look forward to reviewing your work and celebrating your contributions to scholarship at Dartmouth!

 **Learn more and explore the journal:**

<https://gmscholars.com/index.php/gmsj/index>

Datasets for Research

Multiple datasets are available for use to perform clinical and population-based research. These datasets can be used by researchers to answer specific questions related to population.

<https://geiselmed.dartmouth.edu/student-research/datasets-for-research/>

Grant Funding for Research

GrantForward is a search engine that the Dartmouth College grants office has had a contract with for years.

Atom Grants is a grants database but uses DeepAI to auto-match grant opportunities to student/researcher interests and background.

DH Academic Scholar Year Opportunities

Some Geisel students choose to take an additional year to engage in scholarly work within a department or section at Dartmouth-Hitchcock (DH) or The Dartmouth Institute (TDI).
